

SCALING THE FOURTH INDUSTRIAL REVOLUTION

DECEMBER 14, 2017 | 9.30 AM SHARP
PEARL CONTINENTAL, KARACHI

Science Fiction is now turning into a reality.
The Summit will provide a unique opportunity to understand how the world is changing and how it can impact your life. 35%-50% jobs are at risk of automation... Artificial Intelligence, Internet of Things and Big Data Analysis have the potential to empower people to a far greater degree than in the past of unlocking the latent creativity and imagination of human beings at every level of the organization.

Let's be a part of this change!

SUMMIT OVERVIEW

The Fourth Industrial Revolution (4iR) is fundamentally different. New technologies are fusing the physical, digital and biological worlds, impacting all disciplines, economies and industries.

The possibilities of billions of people connected by mobile devices, with extraordinary processing power, storage capacity, and access to knowledge, are unlimited.

These possibilities will be multiplied by emerging technology breakthroughs in fields such as:

- ▶ Artificial Intelligence
- ▶ The Internet of Things
- ▶ Big Data & Real Time Analysis of Data by Machines & Systems
- ▶ Autonomous Vehicles
- ▶ 3-D Printing
- ▶ Nanotechnology
- ▶ Biotechnology, Materials Science, Energy Storage, and Quantum Computing.

On December 14, 2017, Leading Experts and Technocrats come together to share their Emerging Trends; Find solutions to Scale the 4iRevolution.
